The image shows a group of people sitting at a table in a dimly lit room, looking out a large window. The window provides a view of a city skyline, featuring a prominent building with a large dome, likely a state capitol building. The scene is captured in silhouette, with the people and the interior of the room appearing dark against the lighter background of the city view. The text is overlaid in the center of the image.

We are focused on

1. IBE - airline's own online booking engine
2. B2B - going direct with non-IATA agents
3. API - helping airlines distribute faster
4. Payments - accept non-credit card payments globally
5. Ancillaries - hotels, tours, transfers, cars, packages

As part of efforts to minimize credit card fraud, During the check-in process at the airport, Thai Lion Air will perform a random check on the credit card used for online payment. Failure to present the card or proof of payment will result in passengers being required to purchase new tickets for all sectors. Passengers will be denied boarding if found to be traveling with a fraudulent card.
